

ORGANIZER

ROLE

Organizers help communities get together and pick sites for new nodes to expand wireless networks. They use their planning abilities and social networks to help coordinate community members' desire to act.

TASKS

Build A New Node

The following conditions have to be met to build a new node:

- Site is not already a Broadcasting Node
- Obtained permission/consensus from (2/3/3) Residents of the Node Colour
- Get equipment and expertise onsite with (1/2/2) Technologists

Resolve Events

Unforeseen events will occur that require quick thinking and action on the part of the Organizer to resolve. Organizers will have to bring other players to the site to discuss and propose a resolution.
